## Welcome to A+S BioTec

**A+S BioTec GmbH** emerged from a traditional milling company. It is one of 20 subsidiaries of the international Abel+Schäfer Group and is still managed today as a family company committed to innovation.

We are a reliable and competent partner for the food, beverage and brewing industry. Furthermore, we develop, plan and operate for the cosmetics and pharmaceutical industries as well as all needs of technical applications.

As a solution-oriented, experienced food processor, we also offer our expertise and production capacities as part of tailor-made services.

„WE OFFER GLUTEN-FREE, GMO-FREE  
AND ALLERGEN-FREE PRODUCTS.“

A detailed view of industrial machinery, likely a pharmaceutical or food processing plant. The equipment is constructed from polished stainless steel. In the foreground, a large horizontal cylindrical vessel with a perforated end cap is visible. To its right, a vertical pipe assembly includes a pressure gauge and a manual valve. The background shows a complex network of pipes, structural supports, and other industrial components, all under bright, clean lighting.

What sets  
us apart

A bowl of food, possibly a soup or stew, is shown in the upper right. A large, semi-transparent orange circle is positioned behind the word 'FOOD'. The entire scene is set against a white background with a fine, orange-colored powder or spice dust scattered around the bowl and the circle. The word 'FOOD' is written in a simple, black, sans-serif font.
